

CALIFORNIA TOMATO HARVEST UPDATE

Updated August 10, 2026

Week Ending August 1, 2026

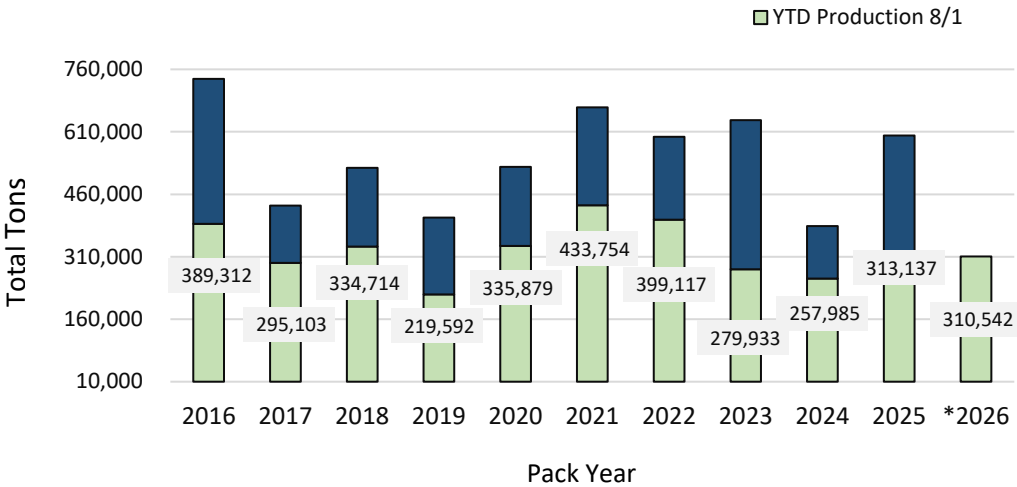

California's processing tomato harvest remains on a steady pace.

PTAB reported **2,336,242 tons** delivered through the fifth week (ending August 1). Weekly deliveries are projected to total **746,755 tons** for the week ending August 8 and **878,584 tons** for the week ending August 15, bringing the projected year-to-date total to **3,961,581 tons** by August 15.

2026 California Organic Tonnage

Through the week ending August 1, California processed **310,542 tons** of organic tomatoes.

Weather Outlook

Cooler temperatures are expected by midweek, providing relief from the recent stretch of triple-digit heat.
